Lighting Technologies

Project Manager — Infrastructure Lighting

JOB DESCRIPTION & COMPETENCY REQUIREMENTS

DOMAIN	EXPERIENCE REQUIRED	LIFECYCLE OWNERSHIP
NHAI & Streetlight SITC	**Minimum 10 Years**	**End-to-End Execution**

1. POSITION SUMMARY

We are seeking a seasoned Project Manager with robust experience in executing National Highways Authority of India (NHAI) infrastructure works and large-scale Streetlight Supply, Installation, Testing, and Commissioning (SITC) projects. The candidate will drive end-to-end project execution, manage multidisciplinary site teams, mobilize labor forces, oversee Running Account Bills (RAB), and maintain cash-flow momentum through secure payment collections.

2. KEY RESPONSIBILITIES

- **End-to-End Execution:** Direct full project lifecycles from site mobilization, layout approvals, Material approval and labour deployment to final handover and defect liability period (DLP) closure.
- **NHAI & Authority Coordination:** Interface regularly with NHAI officials, Independent Engineers (IE), Authority Engineers (AE), and municipal bodies for statutory clearances and technical approvals.
- **Streetlight SITC Management:** Supervise electrical networks, cabling, pole erection, luminaire fittings, control panels, and smart lighting/ integration per project specifications.
- **Labor & Vendor Mobilization:** Appoint, allocate, and manage skilled/unskilled labor contractors, sub-vendors, and specialized installation teams ensuring strict compliance with safety guidelines.
- **RAB & Financial Operations:** Prepare, measure, and process Running Account Bills (RAB) accurately, aligning with site milestone progress and securing timely client sign-offs.
- **Payment Collections:** Follow up rigorously with financial authorities and clients to realize payment collections, minimize aging receivables, and maintain working capital health.

3. COMPETENCY REQUIREMENTS

Competency Category	Specific Technical & Functional Requirements
Project Planning	Proficiency in scheduling tools (MS Project / Primavera), risk mitigation strategies, and managing execution milestones under tight deadlines.

ABOUT THE COMPANY
